

SPORTSWEAR SINCE 1900

125 YEARS

ERIMA owner Wolfram Mannherz proudly looks back on the last 125 years of ERIMA.

1900
THE HOUR OF BIRTH

Our story begins in 1900 as a small sportswear factory in the Swabian town of Reutlingen. Remigius Wehrstein founded his own company for the "sale of sportswear", laying the foundation for the ERIMA sports brand.

1936-1951 NAMESAKE
ERICH MAK

With the takeover of Erich Mak in 1936, the company is renamed "Erich Mak Sportartikelfabrik". After the Second World War, a completely new start is made. In 1951, the company is named after its owner at the time, Erich Mak.

1960-1972
GOLD, SILVER & BRONZE

In 1960, ERIMA is the official outfitter of the German athletes at the Olympic Games. From 1964 to 1984, ERIMA is the uninterrupted supplier of various sports federations at the Olympics.

1980 THE SAFETY OF QUALITY

With the "safety of quality" of all articles as the credo of the 1980s, ERIMA creates an ever-expanding range of high-quality products for all kinds of sports, such as soccer, swimming, athletics, gymnastics, handball, tennis, cycling clothing, bowling, basketball and jogging.

1998 NEW START WITH WOLFRAM MANNHERZ

Adidas commissions Wolfram Mannherz with the fundamental restructuring of the crumbling company. The "red ball" becomes the new brand logo. Business economist and business graduate Wolfram Mannherz becomes Managing Director of ERIMA in 1998 and a shareholder (49%) in 1999/2000. In 2005, Managing Director Wolfram Mannherz takes over the remaining shares from Adidas-Salomon AG as part of a management buy-out and has been the 100% owner of ERIMA GmbH since January 1, 2005.

2014-TODAY THE PUSH FOR INNOVATION

Innovation is an important pillar of the ERIMA identity. The soccer world first, the ERIMA HYBRID TRAINING, is the first ball to combine sewing and gluing techniques in production. In the new ERIMA logistics center, the "Home of Teamsport", over 3.5 million products have been in stock and ready for immediate shipment in addition to the ERIMA HYBRID TRAINING since 2018. As a sports brand with 125 years of experience, we are the specialist for equipping teams, squads and entire clubs with sportswear and accessories.

In the history of a company there are many changes and developments, but with us there is one constant that always remains:

OUR LOVE OF SPORT. It has been with us since day one and is an integral part of the ERIMA identity.

1970-1980 ERIMA IS EVERYWHERE

FC Bayern Munich, Borussia Dortmund, FC Schalke 04, VfB Stuttgart and many more - in the 70s and 80s, almost the entire German soccer league wore ERIMA jerseys.

Many successful clubs from the German handball and volleyball leagues were also chasing points and titles in ERIMA at this time.

1974 WORLD CHAMPION IN ERIMA

ERIMA is "up close and personal" with one of the most glorious triumphs in German sporting history. The German national team with Franz Beckenbauer and Co. wins the home World Cup in the jerseys, shorts and socks of the traditional Swabian company.

1976 ADIDAS SUBSIDIARY

Erich Mak sells his ERIMA for reasons of age and lack of a successor. Adidas acquires the ERIMA company with around 600 employees at the time. The swing arm becomes the company's brand logo for the first time.

ERIMA'S CIRCULAR STRATEGY: WEARING THE FUTURE:

In a world where sustainability is as crucial as scoring a goal, Erima leads with its innovative use of recycled polyester. By transforming millions of plastic bottles annually into our sportswear, we not only craft clothes but also a cleaner future. These garments are not only durable and functional but also exemplify our commitment to quality with robust stitching and superior fabric. This ensures longevity, reduces the need for frequent replacements, and embodies the ultimate sustainability story. Our initiative closes the loop in our production processes, minimizing our carbon footprint and promoting a sustainable sports culture.

CO2 emissions ↓ 32%

Energy consumption ↓ 59%

Saving of water ↓ 90%

FAIRTRADE

With the ERIMA Hybrid Eco, fair play begins off the pitch: the ball is made from sustainable materials and is also Fairtrade-certified. The Fairtrade seal identifies products from fair trade and guarantees compliance with social, ecological and economic standards. The aim is to improve the lives of workers in production - through stable wages, better working conditions and the protection of people and the environment. In addition, the Fairtrade premium promotes projects that sustainably strengthen people's everyday lives, education and healthcare.

BALLS AND ACCESSORIES

At ERIMA, you will not only find sustainable textiles, but also high-quality balls and practical equipment. Our eco drinking bottle is made from sugar cane waste, is recyclable, food-safe and BPA-free. We also focus on sustainability when it comes to balls: the ERIMA Hybrid Eco soccer is made from over 70% sustainable materials and is Fairtrade-certified, while we use recycled polyester for some of the handballs in our Flash line. With the Flex-Ray Match/Eco, we also offer our first goalkeeper glove made from recycled and renewable materials.

CHANGE TOGETHER — WIN TOGETHER

There are many things on our planet that can be changed for the better. On a large and small scale. With such changes, our earth should be preserved for the future as a place worth living in for everyone. We can all contribute to this change, we can all change things for the better. ERIMA also wants to contribute to this change. We do this by using energy effectively, by conserving natural resources and by using recycled materials for our products. We make sure that all legal, social and human standards are implemented for the employees in all the production facilities where ERIMA products are manufactured.

Let's do this together. Change together.

PRODUCT CATEGORIES

At ERIMA, we develop all our products for a specific purpose, with a focus on innovation and quality. For easier classification, we have developed three categories into which all items can be placed:

„PREMIA“, „COMPETE“ & „TEAMSPORT“

PREMIA

Premia products impress with their innovative materials and high-performance designs. These functional products are designed to improve and maximise the performance of professional athletes by incorporating the latest technologies in research and development.

CMPT – Compete

The ‘Compete’ category includes team sports lines in the mid-price segment, created for ambitious amateur athletes. All items are made from high-quality fabrics that are as sustainable as possible. This ensures that athletes are well equipped before, during and after the game.

TEAM – Teamsport (TS)

The basic lines in the Teamsport category are designed for large popular sports clubs. The items have a very competitive entry-level price while also guaranteeing the best quality. Driven by the potential of the future, we also focus on sustainability here.

ERIMA JERSEY HISTORY

- A SUCCESS STORY WITH A LONG TRADITION

Jerseys are more than just a piece of fabric with a club crest and a number.

They ensure that we feel connected, whether with our home club in the district league or with our idol from our favorite club. When we pull on a jersey, the game begins that we look forward to "together" and which we want to **WIN TOGETHER** as a team!

# of teamsport

At ERIMA, jerseys have a long tradition with a great history. We have been producing various sports textiles since 1900.

However, the success story with the production of jerseys really began with the founding of the Federal Republic of Germany. Initially, soccer and handball jerseys were produced. In the years that followed, ERIMA jerseys were ubiquitous. FC Bayern Munich, Borussia Dortmund, FC Schalke 04, VfB Stuttgart, 1. FC Köln, 1. FC Kaiserslautern, Eintracht Frankfurt and many more - in the 70s and 80s, almost the entire German soccer league wore ERIMA jerseys. Many successful clubs from the German handball and volleyball leagues also went on the hunt for points and titles in ERIMA at this time. In 1973, Eintracht Braunschweig became the first team to wear jerseys - a revolution in professional soccer and an integral part of the game today. The Jägermeister stag adorns an ERIMA jersey.

ERIMA is also "up close and personal" with one of the most glorious triumphs in German sporting history.

The German national soccer team with Franz Beckenbauer and Co. win the home World Cup in the jerseys, shorts and socks of the traditional Swabian company.

In the recent past, the ERIMA jerseys were worn for several years by 1. FC Köln, Dynamo Dresden and Eintracht Braunschweig, and the ERIMA logo still adorns the jerseys of many top clubs in the German handball and volleyball leagues, such as Rhein-Neckar Löwen, MT Melsungen and VfB Friedrichshafen. Today, thousands of amateur clubs wear ERIMA jerseys, which are either specially designed for the respective club or come from our jersey collections with a diverse selection of colors and trendy designs.

100% HASG

Sizes: XS, S, M **EUR 39.99***

7212401
black/silver

EXTREMELY LIGHT AND ULTRA THIN
Despite a material thickness of only 4.5 mm, the ERIMA HASG material protects against heavy impacts.

ERGO FLEX SYSTEM
Extremely flexible! The material adapts perfectly to your shin due to its extremely high flexibility.

SHOCK FREEZE SYSTEM
Shock absorbing! For controlled shock absorption, the ERIMA HASG material absorbs and dissipates energy.

AIR CIRCULATION SYSTEM
The many ventilation holes in the structure allow natural ventilation and air circulation.

SELF-REGENERATION
Even after multiple impacts, the ERIMA HASG material can still be used. Unlike PU or EPS foams without material damage, because it returns to its original shape.

TEMPERATURE RESISTANT
Impact protection is provided even in extreme cold or heat. The ERIMA HASG material remains unchanged at temperatures from -20°C to +40°C.

EASILY WASHABLE
The material is machine washable and can be washed over 50 times at 40°C without loss of function.

ERIMA HYBRID TECHNOLOGY

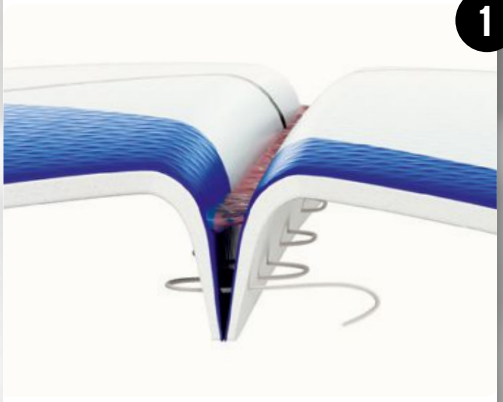
Glued and sewn - the best combined! Our ERIMA Hybrid Technology combines the outstanding playing characteristics of a glued match ball with the high durability of a sewn ball.

Superb training ball with the qualities of a match ball

Extremely longlife polyurethane material with 3D structure

Minimal absorption when raining

ABS valve/8-wing carbon-latex bladder

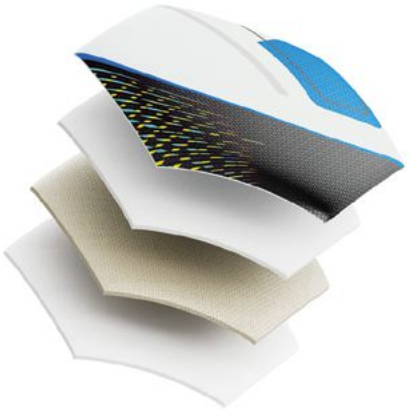


1 EXTREMELY DURABLE AND ROBUST

The panels are deep stitched and additionally thermally bonded - this leads to extremely stable seams that absorb only a minimum of water and dirt.

2 MAXIMUM DURABILITY

The specially wrapped bladder ensures perfect roundness and relieves the seams as well as the material.



3 EXCELLENT BALL FEEL AND OPTIMAL POWER TRANSMISSION

This is ensured by the special combination of several layers of particularly soft, durable high-tech foam.

4 PRECISE FLIGHT BEHAVIOR AND BETTER BALL CONTROL

The 3D-structured PU upper material improves grip and aerodynamics.

PERFECT FOR EVERY SITUATION

Whatever the weather and whatever the surface - soft and robust even in cold temperatures.

ERIMA HYBRID TRAINING 2.0

Even softer, even more robust, even less abrasion and even greater tear resistance! For more ball feel and even longer durability, we have completely redeveloped the upper material. **The ERIMA Hybrid Training 2.0 combines the outstanding properties of the original with the advantages of a softer and more robust surface**. For a sensational feel and long playing pleasure.

1 **Extremely durable and robust**

2 **Maximum durability**

3 **Excellent ball feel and optimal power transmission**

4 **Precise flight behaviour and better ball control**

The innovative PU upper has a completely new material composition and is 20% thicker than the original. This makes the Hybrid Training 2.0 even softer and more robust. Optimised for even more ball feel and even longer durability.

PRINTING INSTRUCTIONS

We generally suggest

- Prints, applications, zippers and seams should not be over pressed.
- It has to be avoided that white and colored fabric get in contact during fixation.
- ERIMA Logos and existing prints have to be covered with paper or thin piece of fabric before printing.
- After print application, fabric must be cooled down completely before further processing.

Transfer Print

- Temperature applied 120°C – max. 150°C (248°F - max. 302°F)
- After print application, fabric has to be cooled down before being removed from the iron plate.
- For white or light colored transfers a silver or carbon backing is mandatory, if used on colored fabrics.
- Always using a rubber anvil in the size of the heat- transfer to avoid that hot heat plate is touching the whole fabric.

Direct Print/Direct Flock

- Only printing links with low temperature fixation must be used. We advice cold wetting glue.
- Fixation temperature 100°C – max. 120°C (212°F - max. 248°F)
- Print fixation time should be below 60 seconds.
- For nylon products:
  Only special glue for nylon must be used. We advise cold wetting glue.
